

QUALITY OF LIFE is amplified in a natural setting. Being outdoors is missing a key component if it is not rooted in nature. That is why the two Kickapoo Parks and the Benjamin School's 125 acres is so beneficial.

What's your pleasure? Don't know? That is not a problem at Kickapoo Park. "Plethora" seems a good word to describe all the things you can "find" to do. And "find" or discover is what we hope happens to stimulate your interest, creativity and physical energies. Sports, education, art, walking, biking, relaxing, swinging, friends, etc., etc., is yours to discover. Enjoy nature at the Kickapoo Park enriched by the Kickapoo Creek.
